High School of Arts Oradea  
2017

## TOOLS

Jira

Slack

Gitlab / Github

Figma

Git

Cloudflare

OpenAI

AI Agents

## EXPERIENCE

### SwissBorg | 2021 December ~ 2025 September

*Web developer*

- Led the web development for SwissBorg Alpha, developing the landing page and project templates to showcase live investment data. Helped drive conversion traffic from the website to the mobile app, contributing to over \$40M raised and 30K+ investors across Alpha campaigns.
- Collaborated closely on a high-profile launchpad project, successfully raising 21 million CHF in funding.
- Led migration from Prismic to Sanity CMS, implementing localisation, performance optimisation, and SEO improvements that reduced content update time and improved search visibility.
- Introduced Storybook now used by developers, designers, and PMs — unified UI components, documented design patterns, reducing front-end bugs and improving design consistency.

### Cosentino (Internship) | 2021 March - 2021 May

*Intern Web developer*

- Developed an internal inventory management web app, reducing item request processing time by ~30% for a warehouse serving 1,000+ employees.
- Improved debugging and problem-solving abilities, learning how to troubleshoot both front-end and back-end issues.
